Ananta

Designer Sergio Bicego

Produzione / Production year: 2000 - Restyling 2016-2024

Descrizione

A un ventennio dalla sua progettazione, Ananta continua a sorprendere per la sua modernità.

Nato con lo scopo preciso di muoversi nello spazio in modo facile consentendo diverse configurazioni, torna ora svelando una nuova possibilità compositiva, ovvero la combinazione bifacciale degli elementi.

Ananta ha anticipato il moderno concetto di fluidità ed è per questo suo valore intelligente che ce ne prendiamo cura per renderlo nel tempo sempre più coerente al moderno abitare.

Il restyling oltre a rendere possibile l'aggancio delle sedute in ogni direzione, lo ha addolcito ammorbidendo tutte le imbottiture, nuovi elementi pouf sono stati aggiunti alla già ricca modulistica e infine una nuova essenza dal colore morbido va a integrare la scelta per gli accessori tavolini.

Memoria, innovazione ed eleganza fanno di Ananta un prodotto per sempre.

Struttura

Base in legno imbottito con poliuretano espanso 30P, rivestito con velfodera accoppiata con resinato 200gr/mq. Il molleggio della seduta è assicurato da cinghie elastiche con anima in polipropilene. Gli schienali sono in legno imbottito con poliuretano espanso a quote differenziate (30P - 40IP e memory foam) ricoperti da una fodera in piuma.

Piedini

I piedini delle basi sono in ABS mentre i piedini della schiena sono in metallo con finitura cromata o verniciata.

Imbottitura

I cuscini dello schienale sono imbottiti con piuma d'oca lavata e sterilizzata suddivisa a scomparti. Ananta propone due tipi di sedute: versione piuma e versione espanso.

Versione in piuma

I cuscini della seduta sono realizzati in piuma d'oca lavata e sterilizzata suddivisa in scomparti e rivestita con tessuto di cotone bianco 100% con anima in poliuretano espanso a quote differenziate (40IP - 30IM e memory foam).

Versione in espanso

I cuscini seduta sono imbottiti in poliuretano espanso a quote differenziate (40IP e 30IM), rivestiti con vellutino accoppiato a dacron 380gr/mq.

Tavolino - struttura

In metallo con finitura corten o black nichel.

Tavolino - top

Impiallaccato noce canaletto o rovere chiaro oppure rivestito in cuoio rigenerato.

Description

Twenty years after Ananta was designed it continues to surprise with its modernity.

Created with the precise purpose of easily moving through space by allowing different configurations, it now unveils a new compositional possibility, the double-sided combination of elements.

When conceived, Ananta anticipated the modern concept of fluidity and for this intelligent value it withholds, we care for it to be more and more consistent with the concept of modern living over time.

The restyling, in addition to making it possible to hook the seats in every direction, has mellowed it by softening all the padding. New pouf elements have been added to the already rich module options and lastly, a new soft wood finish has been integrated for the coffee table accessories.

Memory, innovation and elegance make Ananta an everlasting product.

Structure

In wood padded with polyurethane foam 30P, covered with velfodera on a resin-coated backing 200gr/sqm. The seat is sprung with elastic straps reinforced with polypropylene. Backrests are in wood padded with variable-density polyurethane foam (30P - 40IP e memory foam) covered with a feather lining.

Feet

The bases have feet in ABS while the feet of the backs are in metal with chromed or painted finish.

Padding

The back cushions are padded with washed and sterilized goose down divided into sections. Ananta proposes two kinds of seats: feather and polyurethane foam versions.

Feather version

The seat cushions are filled with washed and sterilized goose down divided into sections and covered with white 100% cotton fabric with a variable-density polyurethane foam core (40IP - 30IM e memory foam).

Foam version

The seat cushions are padded with variable-density polyurethane foam (40IP e 30IM), covered with velveteen coupled with dacron 380gr/sqm.

Low table - structure

In metal with corten or black nickel finishing.

Low table - top

Canaletto walnut or light durmast veneer or covered in regenerated leather.
